FYI, please see below. Based on Jackie's input, I was planning on selecting the 10<sup>th</sup> and closing the poll. Let me know, and I will announce the date later this afternoon. (Chris was going to move his compressed day.)

OK, so I'll keep in mind that the 10<sup>th</sup> is the best for CDC, irrespective of the poll. Actually, it seems we should just decide on the 10<sup>th</sup>, at this point. I will run by Nicole and plan on closing the poll.

Angela said June 10 was better even though they were going to try and make it earlier. I would presume that 6/10 is the better date for them. Not sure if 1 or 2 will go though.

Yes, I thought you said that, but on the doodle poll only Angela chose the 10<sup>th</sup>, and Elizabeth indicated she was not available. According to the poll, both are available on the 7<sup>th</sup> and the 9<sup>th</sup>. So, I am not sure anymore how we stand on the side of CDC.

**Subject:** RE: Tour of [ ] tire crumb facility in [ ]

Actually, CDC indicated that June 10 was a better possibility for them. I am still not sure that I can come, but June 10 may work better for me.

Good morning Annette,

I believe that the 10<sup>th</sup> was the only date Jackie could come out, too. Having both of you express preference for the 10<sup>th</sup> is a strong reason to decide for that date. I will keep you posted.

Best,  
Ksenija

Good Morning Ksenija,

I had hoped to do this trip but I have commitments for those dates. Friday 6/10 is my CDO and would consider going out. So let me know if this is the day that is decided and I will keep open.

Thanks. Annette.

Hi all,

I added Friday, June 10<sup>th</sup> as another option for the tour. For those of you who voted, please recast your votes,

**Subject:** Tour of [REDACTED] tire crumb facility in [REDACTED]

Hi all,

As part of the federal action plan on the use of recycled tire crumb in sports fields, we will be touring [REDACTED] a tire recycling facility in [REDACTED]

Please respond to the Doodle poll so we can lock down the date for the tour: **Ex. 6 Personal Privacy (PP)**

Doodle:  
Tour of  
tire crumb  
processing  
at [REDACTED]

doodle.com

The purpose  
of the tour is  
to see the  
processing of  
tires into  
crumb rubber  
infill for sports  
turf, and ask

questions around the source and variability of feedstock, processing technologies and variability in end product properties. The proposed time frames are for the tour of the facility, only; attendees should plan to fly into [REDACTED] the night before or take an extremely early flight on the day of the tour.

(Please also keep in mind that you will either have to fly into [REDACTED] the day before or very early on the day of the tour.)

Thank you,  
Ksenija
